Re: University of North Texas Fiber program advocacy contact information

The University expects that there will be outcry from the community about the dissolution of the fibers program, but they expect it to die down quickly. It is imperative that any action you take should be repeated or added to in order to keep the pressure up.

Please send links, data, opinion, etc. that illustrates the importance of fibers in fine art to the email above. They will be posted to the <http://www.explorefiber.com/fiber-art-advocacy/> page that will not only advocate for this particular situation, but will also be a strong advocacy tool for fiber programs everywhere.

Emails are important to send, but hard copies should also be mailed to each contact person. Below you will find the contact information:

Main UNT Contact Information:

University of North Texas
1155 Union Circle #311277
Denton, Texas
76203-5017

President

Neal.Smatresk@unt.edu

CVAD Associate Dean

Eric.Ligon@unt.edu
